Breeding Contract, Bill of Sale, Guarantee

This guarantee and contract concerns the German shepherd puppy sold to:

Name _____ Phone # _____

Address _____

City _____ State _____ Zip _____ Email _____

Puppy Information:

Whelped by _____ AKC# _____

Sired by _____ AKC# _____

This puppy is sold with: Limited Registration Spay/neuter No Registration

Registration papers will be sent within 1 month of sell of said puppy. This contract is null and void if this puppy is not registered within 4 months of receiving registration papers.

This German Shepherd: 1) _____ COLOR 2) _____ M/F 3) _____ DOB

1. The name BAHR-S shall preface any name put on the application for registration.
2. This puppy has had a health check on _____ and details are enclosed in health record. The said puppy's entire body including eyes, ears, mouth, nose, sensory and sex organs are healthy and functioning properly as of this age.

First puppy shot given _____. First worming was given on _____ which makes the puppy ____ weeks old. Second worming was given on _____. Third worming was given on _____. Second shot was given on _____. The breeder (seller) administered the puppy shots and worming medicine. The gestation for Parvo is 5-8 days. I do not guarantee this puppy from Parvo after 10 days. This means it contracted the disease after it was in your care. The remaining immunizations and medicines are the responsibility of the buyer, for the health of this puppy.

3. Buyer has two (2) business days from time of pick up of puppy in which to have his/her own veterinarian check the puppy to determine health. If finding illness or a health issue with puppy, the puppy may be returned to breeder for an equal replacement puppy. If the puppies from this litter have been placed, a puppy from the next available litter will be the replacement puppy.
4. There is a two-year guarantee on this puppy for genetic defects. This includes but not limited to blindness or deafness, heart defects etc. Accidents through neglect of buyer or oversights are not considered

genetic. The buyer has the responsibility to supply written proof supplied by the veterinarian through written report, exams and x-rays to show that this puppy has any of these genetic faults. It is required and necessary to contact the breeder within 12 hours of any diagnosed genetic defects of this puppy for this contract to be binding. As a breeder, I do not always know if I am improving the breed if I do not get feedback from the new families (buyers) of these puppies. Please let me know of any concerns or problems that may arise. I also like to receive good feedback, pictures, and updates.

5. Between 20 and 25 months of age, this puppy should have elbows and hips x-rayed by a licensed veterinarian in form acceptable to OFA at buyer's expense. Said x-ray shall be submitted to OFA for reading. OFA does not certify the readings until 24 months of age but prelims can be done.
6. For a **companion puppy** with limited registration and spay/neuter contract the guarantee is that of hips that has nothing less than *Borderline Hip Joint conformation* as indicated by the OFA results whether prelims or being certified. If puppy's hips do not meet this reading then a replacement puppy of equal value will be offered within one (1) year of results under the following requirements:
 - a) Buyer will at his/her expense, spay or neuter this puppy, if it hasn't been done. Seller will not ask for this puppy back. OR
 - b) In the event that this puppy must be destroyed due to the severity of hip dysplasia, a written form of veterinarian findings must be given to breeder.
7. It is the obligation of the buyer to have this puppy spayed or neutered within 6-12 months (see addendums to this requirement if any) in order to have any of this contract enforced by the buyer. If failure to comply with this agreement, the buyer has no further rights, options, or claims upon the breeder (seller).
9. This puppy cannot be euthanized without prior notification and consent from the breeder.
10. It is agreed that under no circumstances will the breeder (seller) pay for any surgery, in all or part for and not limited to: hip dysplasia, joint surgery, spay/neuter or any other medical or surgical needs.
11. If buyer places this puppy in another home, all guarantees are null and void.
12. If breeder can demonstrate buyer's failure to abide to this agreement, contract, bill of sale, the breeder shall have the legal right to repossess the puppy and get a signed AKC transfer application from the buyer without refunding any money. The buyer will then be liable for any expenses incurred in this process, including legal fees, and veterinarian expenses to restore this puppy to good health if necessary. Any legal actions must be acted upon within the city or county of Yakima, Washington.
13. It would be in the best interest of this dog for the buyer to inform the breeder of their current address and phone number for the life of this dog.

The price of this puppy is _____ plus sales tax of _____ for a total of _____. A deposit of _____ was given and the remaining _____ is to be paid in one of the following manner:

- 1) _____ Paid in full at time of puppy pickup
- 2) _____ Payment in monthly set amounts continuing after puppy pickup
- 3) _____ Payment in monthly set amounts before puppy pickup
- 4) _____ Paid in full at time of choosing puppy but before puppy is old enough to leave litter

The deposit is non-refundable unless the breeder can not meet the proper gender or color of the buyer's written statement. The deposit does go towards the price of the puppy. A check can be used as payment for the puppy deposit, but cash or postal money will need to be used for final payment.

Shipping is paid by the buyer. If puppy is returned to the breeder (seller) the buyer will pay for the return of puppy regardless of mode of transportation.

Buyer _____ Date _____

Breeder (seller) _____ Date _____

I, owner of BAHRS Kennels and as a breeder of German Shepherds will always do my best to provide hardy, healthy, and happy puppies. My goal is to promote and better this wonderful breed. With my goal I will always try to produce better puppies than the parents. The German shepherd dog has a valiant and worthy past, and I hope to continue this heritage.

Comments or further agreement:

- 1) It is **highly recommended and encouraged** that this puppy, as with all puppies and dogs, should be puppy trained and have dog obedience classes.
- 2) Please feel free to call if problems arise. I will do my best to give sound advice to concerns or questions.
- 3) On occasion I will send out surveys to help me know if problems have risen in my breeding program or to support a study in progress at many of the universities.
